Task: File Ingestion and Schema validation

```
[ ] import os  
import time
```

```
#Size of the file  
os.path.getsize('/content/parking violations.csv')
```

```
↕ 27262976
```

Read in the data with Dask

```
[ ] from dask import dataframe as dd  
start = time.time()  
dask_df = dd.read_csv('/content/parking violations.csv')  
end = time.time()  
print("Read csv with dask: ",(end-start),"sec")
```

```
↕ Read csv with dask: 0.06425046920776367 sec
```
